Gates, Corral Panels

Gate & Corral Panel Performance:

With our good, better, best approach, every Behlen gate and corral panel is designed to perform. Rugged, resilient and field proven, simply pick the level of performance you need for your site.

▶ Heavy Duty	▶ Medium Duty	▶ Utility
<p>Designed to withstand the most damaging conditions, the Heavy Duty collection features 3 finishes, heavy gauge steel tubing, special Z-braces, and saddle weld joints, so you can count on them to last.</p> <p>Gates:</p> <ul style="list-style-type: none"> • Rugged 2" and 1-5/8" diameter tubes • Hefty 14 or 16 gauge steel • Powder Coat, Galvanized or Hot-Dipped Galvanized Finish <p>Corral Panels:</p> <ul style="list-style-type: none"> • Rugged 2" diameter tube • Hefty 16 & 18 gauge steel • Powder Coat, Galvanized or Hot-Dipped Galvanized Finish • Heavy Duty 2" diameter arch gates, entrance panels and inverted arches 	<p>Our Medium Duty lineup is great for 365-day wear and tear. Armed with tough materials and durable finishes, Medium Duty thrives in heavy traffic and bad weather.</p> <p>Gates:</p> <ul style="list-style-type: none"> • Rugged 1-5/8" diameter tube with wire mesh panels • Heavy 16 & 18 gauge steel • Resilient Powder Coated or Galvanized Finish <p>Corral Panels:</p> <ul style="list-style-type: none"> • Rugged 2" and 1-5/8" diameter tube • 16 & 18 gauge steel • Powder Coat or Galvanized Finish • Medium Duty 1-5/8" diameter entrance panels and arch gates 	<p>For everyday performance that will last, and last, the Utility lineup is made for the job. Big on value, and low on maintenance, Utility works as hard as you do.</p> <p>Gates:</p> <ul style="list-style-type: none"> • Utility 1-5/8" diameter tube • Utility 20 gauge steel • Resilient Powder Coated or Galvanized Finish <p>Corral Panels:</p> <ul style="list-style-type: none"> • Utility 1-5/8" diameter tube • Utility 18/20 gauge steel • Resilient Powder Coated or Galvanized Finish

Gate & Corral Panel Finish Options

Premium Powder Coat

Behlen Country Premium Powder Coat provides a long lasting, weather resistant finish.

This unique process starts with:

1. Automotive grade, high tensile steel

Followed by a state-of-the-art wash system:

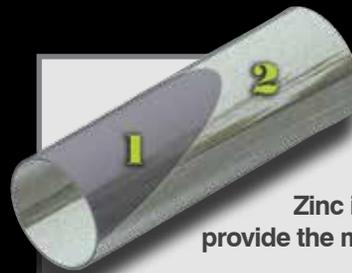

2. 6 stage wash and chemical etch

- | | |
|-----------------------------------------------|------------------------------------------|
| 1) Alkaline cleaner removes oils, soils, etc. | 4) Phosphate preps material for adhesion |
| 2) De greasing Rinse | 5) Spot-free Rinse |
| 3) Rinse | 6) Reverse osmosis rinse |

(This process ensures maximum adherence of top coat for a no blister, no peel tough finish)

3. Behlen Country Premium Powder Coat

- a. Electrostatically applied, ensures no runs and even coverage
- b. 375° baked on finish is hard as nails
- c. UV resistant (fade resistant)
- d. Similar to the process used in the automotive and appliance industry

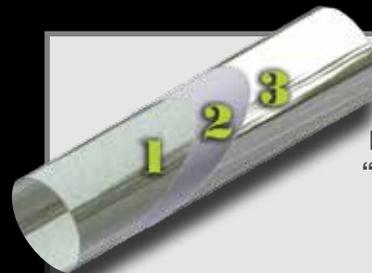

Hot-Dipped Galvanized

Zinc is heavily bonded with steel to provide the most corrosion resistant finish.

This unique process starts with:

1. Automotive grade, high tensile steel
2. Followed by Behlen Country's exclusive on-site hot-dip galvanizing process

- a. Increased life due to zinc coating on the inside as well as the outside of product
- b. Provides the ultimate protection against corrosion and insures a lasting finish
- c. For example: a 16' 2" gate has over 7 pounds of zinc applied over automotive grade, high tensile steel

GalvSmart

Behlen Country's exclusive "double coat" finish creates a superior rust protection.

The GalvSmart process starts with:

1. Automotive grade, high tensile, pre-galvanized steel

Followed by a state-of-the-art wash system:

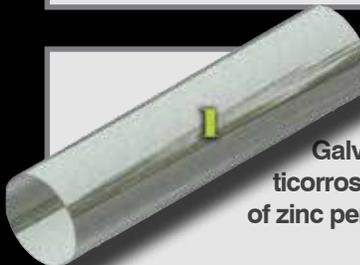

2. 6 stage wash and chemical etch

- | | |
|-----------------------------------------------|------------------------------------------|
| 1) Alkaline cleaner removes oils, soils, etc. | 4) Phosphate preps material for adhesion |
| 2) De greasing rinse | 5) Spot-free rinse |
| 3) Rinse | 6) Reverse osmosis rinse |

(This process ensures maximum adherence of top coat for a no blister, no peel tough finish)

3. Behlen Country premium silver powder coat to finish the entire product

- a. Electrostatically applied, ensures no runs and even coverage
- b. 375° baked-on finish is hard as nails
- c. UV resistant (fade resistant)
- d. Similar to the process used in the automotive and appliance industry

Galvanized

Galvanized steel is an effective anticorrosion resistant finish, with layers of zinc permanently bonded to the steel.

1. Automotive grade, high tensile, pre-galvanized steel

- a. All welds are coated with zinc rich paint for increased protection

Premium Powder Coat with Zinc Primer

Zinc Rich Primer provides a base coating of extra anti-corrosive protection.

Available on select products.

This unique process starts with:

1. Automotive grade, high tensile steel

Followed by a state-of-the-art wash system:

2. 6 stage wash and chemical etch

- | | |
|-----------------------------------------------|------------------------------------------|
| 1) Alkaline cleaner removes oils, soils, etc. | 4) Phosphate preps material for adhesion |
| 2) De greasing rinse | 5) Spot-free rinse |
| 3) Rinse | 6) Reverse osmosis rinse |

(This process ensures maximum adherence of top coat for a no blister, no peel tough finish)

3. Zinc rich primer provides another layer of protection for increased life of finish

4. Behlen Country premium powder coat paint to finish the entire product

- a. Electrostatically applied, ensures no runs and even coverage
- b. 375° baked-on finish is hard as nails
- c. UV resistant (fade resistant)
- d. Similar to the process used in the automotive and appliance industry

Gates

Heavy Duty Gates

Our heavy duty gates keep the toughest stock contained.

2" • 16 Gauge Gate Heavy Duty Gate

Best Value in a Heavy Duty Gate

- Designed for crowding livestock areas
- Heavy, all 16 gauge steel tubing
- Horizontal tubes are notched and welded for additional strength
- Vertical Z-braces offer extra strength and support
- 6 Rails, 50" High
- 3/4" x 12" long threaded bolt hooks for hinges
- Welded latch and 36" long plated chain
- 18 and 20 foot long gates come standard with 3 bolt hooks for added support
- Long-lasting, UV resistant powder coat finish

AVAILABLE COLORS: ● RED ● GREEN

Hinge

- Heavy collared hinges with 11" long, 3/4" dia., plated, threaded bolt, complete with hardware
- 3 Heavy collared hinges on 18 and 20 foot gates
- Vertical Z-braces offer extra strength and support
- Square corners for increased animal safety
- Horizontal tubes are notched and welded for additional strength
- 6 Rails, 50" High
- Welded latch and 36" long plated chain
- Long-lasting, UV resistant powder coat finish

NOTE: ALL GATES ARE 4" LESS THAN LISTED LENGTH TO ALLOW FOR GATE HARDWARE AND PROPER CLEARANCE.

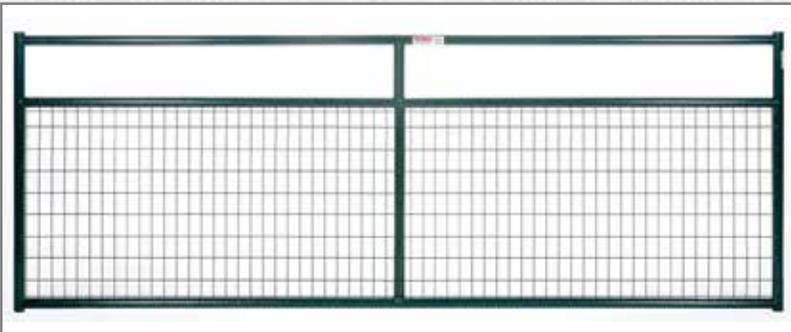

2" • 16 Gauge Hot-Dipped Galvanized Gate

AVAILABLE COLORS: HOT-DIPPED GALVANIZED

- Completely Hot-Dipped Galvanized after fabrication for coverage inside and out
- The ultimate in tough, durable, long-life finish
- Square corners for increased animal safety
- Horizontal tubes are notched and welded for additional strength
- Extra heavy 11 ga. vertical brace
- 6 Rails, 50" high
- 3/4" x 12" long threaded bolt hooks for hinges
- Welded latch and 36" long plated chain

NOTE: ALL GATES ARE 4" LESS THAN LISTED LENGTH TO ALLOW FOR GATE HARDWARE AND PROPER CLEARANCE.

Gates

Medium Duty Gates

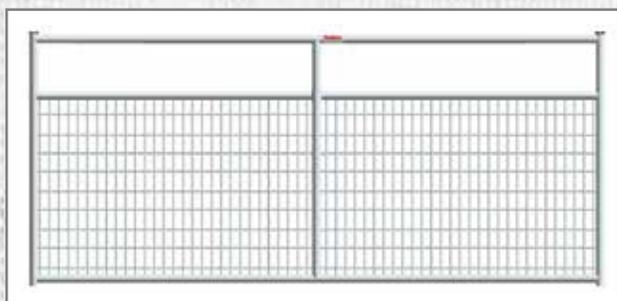

Our reliable medium duty gates will fit your needs perfectly.

1 5/8" • 2" x 4" Wire-Filled Gate

- 6 gauge mesh is 20% heavier than competition
- Ideal for yards, confinement for small animals, or as a non-climb horse gate
- Bolt-on hinges allow gate to be easily reversed when hanging two gates together
- Square corners for animal safety
- Easily converted to small animal panels
- 50" High
- Saddle welded braces for increased animal safety

NOTE: ALL GATES ARE 4" LESS THAN LISTED LENGTH TO ALLOW FOR GATE HARDWARE AND PROPER CLEARANCE.

Landowner Gate

- Visibility ensured both day and night with reflective decals on gate
- Heavy collared hinge keeps gate from sagging for years of use
- Long lasting, eco-friendly powder coat green paint
- Heavy 2" 18 gauge high tensile strength steel
- Heavy duty collared hinges make theft or removal of gate difficult
- Plated, lockable chain standard
- Accepts most padlocks (not included)
- Customize to fit any opening by drilling additional holes
- 12 to 20 foot coverage with one gate
- Extends easily with 1-3/4" 16 gauge telescoping tube
- Adjustable every 24" with holes pre-drilled
- Strong 3/8" bolt used to secure telescoping tube
- Opens easily in any weather due to high ground clearance
- Attractive alternative to standard yard gates

Gate Accessories

Find the gate accessories you need here.

A. Bolt Hook Assembly

- Full 12" of thread
- Easily adjustable w/ double nut & washer system
- Available in 5/8" dia. for 1-5/8" gates & 3/4" dia. for 2" gates

B. Screw Hook

- 5/8" X 6" Threaded
- Zinc plated
- Easy to install, provides excellent support

C. Gate Hinges

- Zinc plated, includes hardware

D. Chain & Snap Assembly

- Pre-assembled, ready to use

E. Gate Brackets

- Use to attach gates to walls
- Accommodates 2" gates

F. Hanging Clip

- Use to attach gate or corral panel to post or flat surface

G. Horse Gate Latch

- Allows gate to be opened from horseback
- Fits both 1-5/8" gates or 2" gates
- Adjustable height and reversible

H. Double Piston Lever Latch

- Allows easy opening of gate from horseback
- Includes safety lock
- U-Bolts included
- For a 2" only

I. Gate Rack

- Heavy 3" channel construction
- Tripod cross bracing for added stability
- Four places to hang gates
- Designed with upper and lower level (for longer, heavier gates) on each side
- May be anchored to concrete or asphalt, anchor bolts not included
- Some assembly required
- Holds up to 40 - 2" gates

J. Gate/Kennel Rack Combo

- Heavy 3" channel construction
- Tripod cross-bracing for added stability
- Designed with gates to be hung on lower level one side and upper level both sides
- Kennels to be stored on one side of the lower level
- Some assembly required
- Holds up to 30 - 2" gates

K. Single Tier Rack

- Heavy 3" channel construction
- Tripod cross-bracing for added stability
- Designed with gates to be hung on both sides
- Some assembly required
- Holds up to 20 - 2" gates

L. Gate Hardware Packages

Behlen Country hardware packages are weatherproof and sun-resistant. No other livestock equipment manufacturer offers this easy-to-use, complete kit. Offer your customers something unique!

- High quality, rust-resistant, plated hardware compared to painted
- Chain attached after fabrication which leaves the gate with the best possible finish. Chain is NOT welded to the gate which can leave a hole in the gate and a rusty spot for decreased life.
- No worries with installation as Behlen Country includes gate installation instructions with every package.
- Strong, UV resistant covering on hardware packages for extended life.
- Easy identification for individual ordering with the large, easy-to-read barcode.

Heavy Duty Corral Panels

Rugged corral panels for even tougher stock.

How to calculate your round pen:

1.) To find the number of panels needed, multiply the desired diameter (straight line passing through the center of the circle) by 3.14. This will determine the circumference (the distance around the circle).

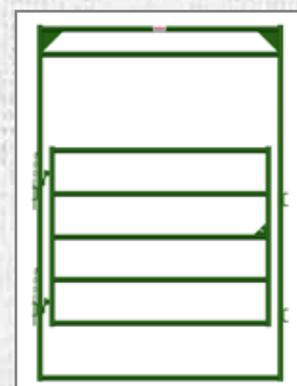

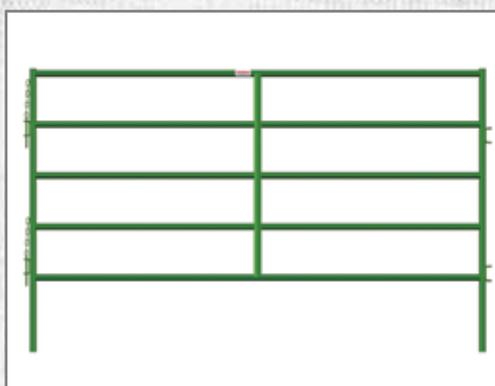

2.) Divide the circumference by the length of panels being used. This will equal the number of panels needed.

ROUND PEN CHART																	
DIAMETER OF HOLDING AREA (FEET)																	
	20'	25'	30'	35'	40'	45'	50'	55'	60'	65'	70'	75'	80'	85'	90'	95'	100'
10' PANEL	6	8	9	11	13	14	16	17	19	20	22	24	25	27	28	30	31
12' PANEL	5	7	8	9	10	12	13	14	15	17	18	20	21	22	24	25	26
NUMBER OF PANELS NEEDED																	

NOTE: SIZES ARE APPROXIMATE. QUANTITIES ABOVE INCLUDE ENTRANCE PANEL OF SAME LENGTH AS CORRAL PANEL. PEN DIAMETERS WILL VARY DEPENDING ON SIZE OF ENTRANCE PANEL OR ARCH GATE.

2" • 16 Gauge Panel 5 Rail • 72" Tall

- Designed for training horses in round pens
- When used in a round pen, these panels maximize safety:
 - ▶ 18" extra room between bottom rail and ground for leg clearance
 - ▶ Square corners and tight pin connectors reduce space to 1" between panels
 - ▶ Straight leg design eliminates catch point
- Behlen Country's tallest corral panel
- 14 gauge formed braces on both sides
- 5 Rails
- Long-lasting UV resistant premium powder coat finish
- All 16 gauge for added durability and strength

Behlen Country galvanized fence panels have over 3 times the zinc protection of other brands.

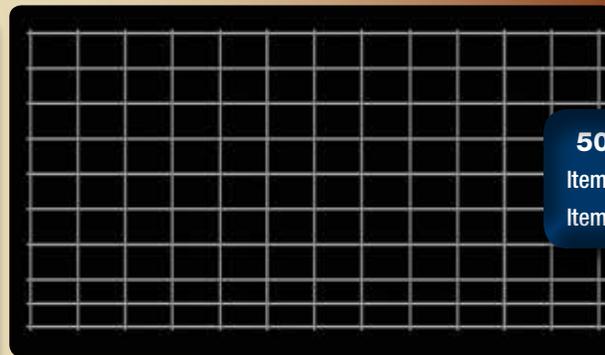

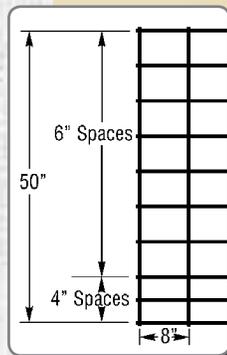

Hot-Dipped Galvanized Fence Panels

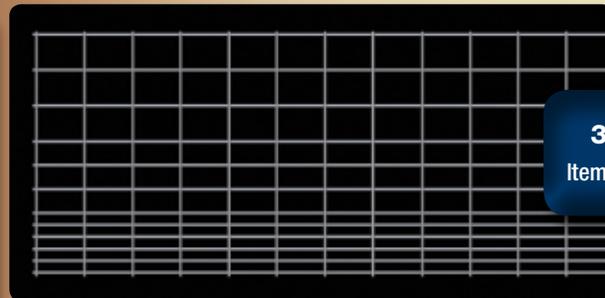

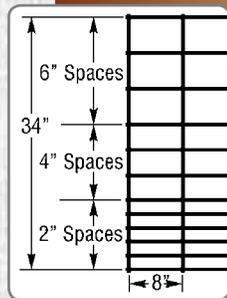

- All panels are **hot-dip galvanized after welding** so all weld spots are completely covered, eliminating rust and corrosion at all “shear” points and joints.
- Nearly 2 lbs of zinc dramatically increases fence life, eliminates rust and reduces rod separation
- Hot-dipped galvanized delivers more than 3 times the protection of pre-galvanized rod.
- Available in a wide range of sizes for various applications.

Stall Features

- Affordable, easy-to-set-up modular system allows for various row configurations
- Heavy 14 gauge, 2" round tube framing is used for extra strength and stability
- ½" solid vertical rods spaced 3" apart allow for better ventilation and viewing
- Each reversible stall front comes with a 4' left-hand rolling door and 2' feeder door
- Feeder door swings out easily and is low enough to allow even a child to use†
- Main door rollers on top allow the door to glide easily with minimal effort
- Optional Corner Feeders can be attached for feeding from outside the stall
- Lower 4' of stall can be filled with 2" (customer supplied) lumber (Comes with a chart that explains how to cut the wood. Designed to accept any 2" planed lumber...2" X 6", 2" X 8", etc.)

Shelters

Modular Shelter Kits

Engineered to be strong and versatile.

Thirteen prepackaged kits integrate different collections of these great components:

- XT Corral Panels
- Stall Panels
- 12' Open Support Brace
- Shelter Packages
- Roof Connectors
- Can be added to as your needs change
- Considered a "portable shelter" (can be built in most areas without a building permit, check your local regulations)
- Includes 2" butterfly clamps (gray or galvanized)
- Each stall corner and each connection between corral panels requires a pair of connectors; XT panels come with chain hookups; however, butterfly clamps make a more sturdy connection
- Corner and Center Foot Pads keep corral panels from sinking
- Provides a 40-psf roof snow load, 90-mph wind load, when properly installed with 29 gauge or heavier roof sheeting

AVAILABLE COLORS: ● GRAY ○ HOT-DIPPED GALVANIZED

IMPORTANT NOTE: The Behlen Country Shelter System will work only with the Behlen Country 12' XT Corral Panels and Behlen Country 12' Stalls. Any substitution with other equipment may not work and will void all warranties. Behlen does not provide roof sheeting, ridge caps, roof screws or wood.

SHIPPING NOTES: There is a minimum dollar amount for all UPS Shipping Orders. Please contact us by phone at (800) 447-2751, for more information.

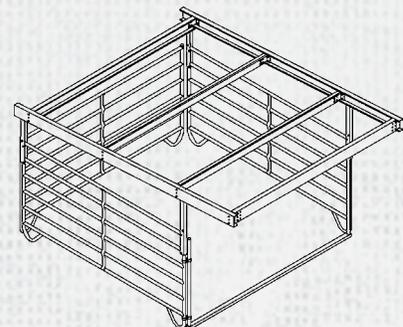

NOTE: Powder Coated panels are standard. Kits can be itemized to include Hot-Dipped Galvanized panels.

Kit No. 7 Item No. 76078407

Two 12' x 12' corrals with entrance panel fronts, and a 12' wide covered breezeway.

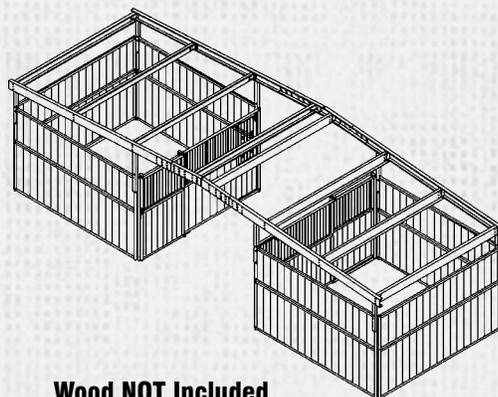

This kit includes the following:	Item No.
6) 12' XT Corral Panels	44131127
2) 12' XT Entrance Panel	44131037
2) Shelter Framing Package	76110678
2) 6' Center Roof Connectors	76110688
2) Horse Gate Latch	44112207

Kit No. 8 Item No. 76078397

Two 12' x 12' Behlen Country stalls with solid sides and fronts with a sliding door and feed door, and a covered 12' wide breezeway.

This kit includes the following:	Item No.
6) 12' Solid Stall Panels	76110257
2) 12' Stall Fronts	76110287
2) Shelter Framing Packages	76110678
2) 6' Center Roof Connectors	76110688

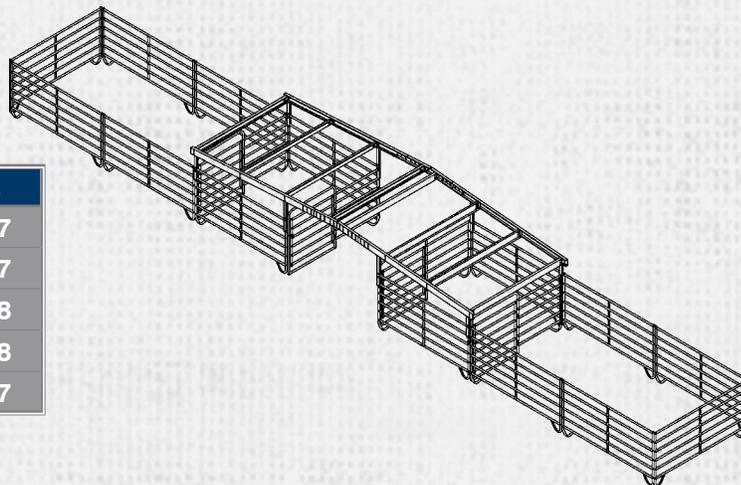

Wood NOT Included

Kit No. 9 Item No. 76078517

Two 12' x 12' corrals with entrance panel fronts and rears, a covered 12' breezeway and 12' x 24' runs.

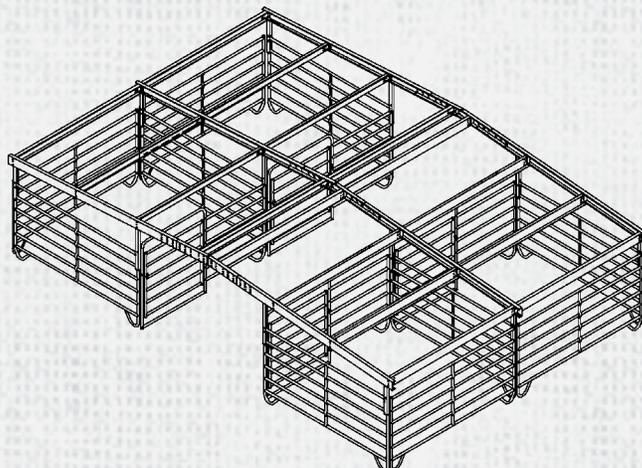

This kit includes the following:	Item No.
14) 12' XT Corral Panels	44131127
4) 12' XT Entrance Panels	44131037
2) Shelter Framing Packages	76110678
2) 6' Center Roof Connectors	76110688
2) Horse Gate Latches (for fronts only)	44112207

Kit No. 10 Item No. 76078437

Four 12' x 12' corrals with entrance panel fronts and a covered 12' wide breezeway.

This kit includes the following:	Item No.
10) 12' XT Corral Panels	44131127
4) 12' XT Entrance Panels	44131037
2) Shelter Framing Packages	76110678
2) Add-on Shelter Framing	76110708
3) 6' Center Roof Connectors	76110688
4) Horse Gate Latches	44112207

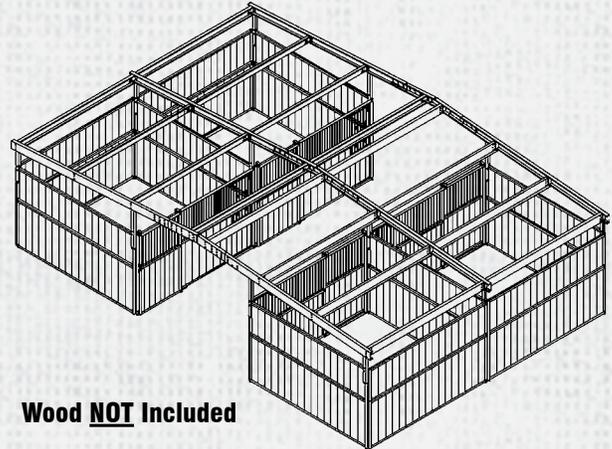

Kit No. 11 Item No. 76078427

Four 12' x 12' Behlen Country stalls with solid sides and fronts with sliding door and feed door, and a covered 12' wide breezeway.

This kit includes the following:	Item No.
10) 12' Solid Stall Panels	76110257
4) 12' Stall Fronts	76110287
2) Shelter Framing Packages	76110678
2) Add-on Shelter Framing	76110708
3) 6' Center Roof Connectors	76110688

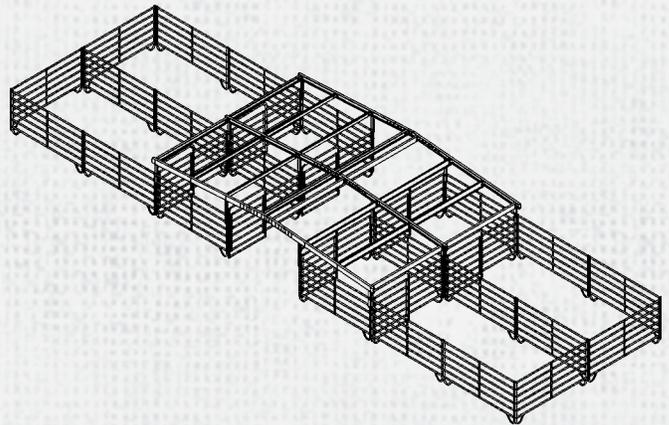

Wood **NOT** Included

Kit No. 12 Item No. 76078557

Four 12' x 12' corrals with entrance panel fronts and rears, a covered 12' wide breezeway and 12' x 24' runs.

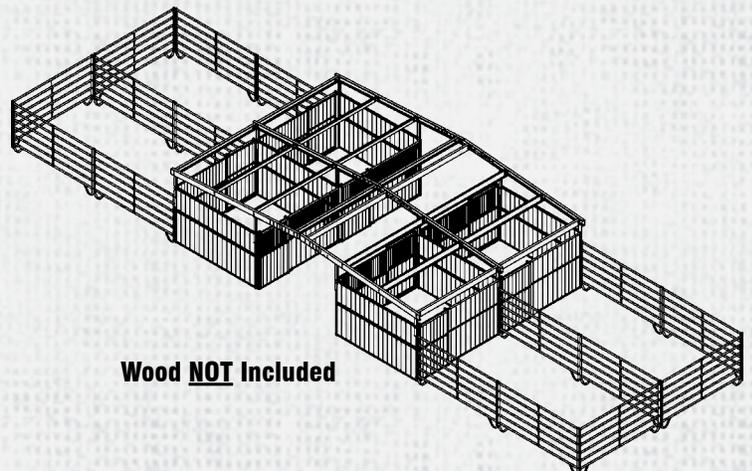

This kit includes the following:	Item No.
22) 12' XT Corral Panels	44131127
8) 12' XT Entrance Panels	44131037
2) Shelter Framing Packages	76110678
2) Add-on Shelter Packages	76110708
3) 6' Center Roof Connectors	76110688
4) Horse Gate Latches (for fronts only)	44112207

Kit No. 13 Item No. 76078547

Four 12' x 12' Behlen Country stalls with solid sides, fronts with sliding door and feed door, and solid backs with sliding door, with a covered 12' breezeway, and 12' x 24' runs.

This kit includes the following:	Item No.
6) 12' Solid Stall Panels	76110257
4) 12' Stall Fronts w/door	76110287
4) 12' Solid Front Panel w/door	76110727
16) 12' XT Corral Panels	44131127
2) Shelter Framing Packages	76110678
2) Add-on Shelter Framing	76110708
3) 6' Center Roof Connectors	76110688

Wood **NOT** Included

Modular Shelter Components

- NOTE: The Behlen Country shelter system will work **only with Behlen Country 12' XT Corral Panels and Behlen Country 12' Stalls Panels**. Any substitution with other equipment will not work and all warranties will be voided. Pictures showing installations complete with roof sheeting and wood sides are for reference only. **Behlen does not provide roof sheeting, ridge caps, roof screws or wood.** (Photos shown are variations of kits.)

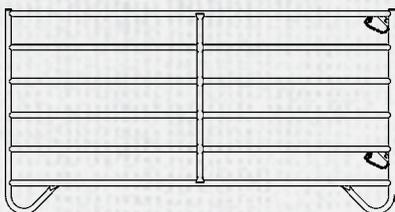

Behlen Country previously made a 12' x 12' shelter. None of these 12' x 15' shelter parts will fit the older units.

12' XT Corral Panel

Item No. 44131127 (gray)

Item No. 44131129 (galvanized)

12' long, 6' high, 16/18 gauge 2" diameter tubing, chain hookups included.

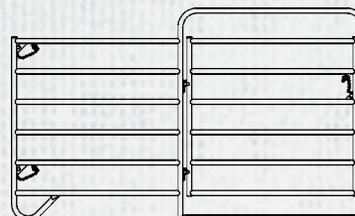

12' XT Entrance Panel

Item No. 44131037 (gray)

Item No. 44131039 (galvanized)

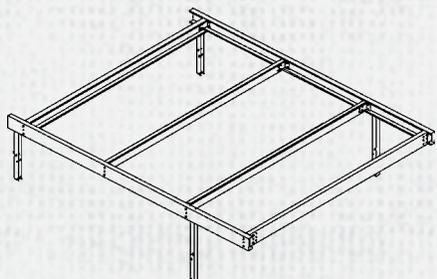

12' long, 6' high with 6' x 7' gate, used for front (or back, or both) of XT pen.

Shelter Framing Package

Item No. 76110678

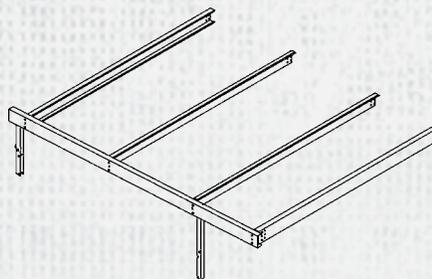

Basic roof framing for one pen or stall (12' x 15' w/front overhang), includes beams, purlins, shelter posts, butterfly clamps (to connect stall and XT Panels) and hardware.

Shelter Framing Package Add-on

Item No. 76110708

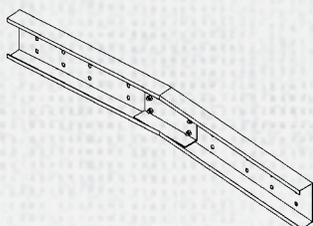

For second unit. Bolts to Shelter Framing Package, uses common beam. Includes beams, purlins, shelter posts, butterfly clamps (to connect stall and XT Panels) and hardware.

6' Center Connector

Item No. 76110688

This item makes a 6' piece that joins two shelters which are set up facing each other with a 12' breezeway in between. For a pair of shelters, you would buy two 6' Center Connectors. For each additional pair of stalls, you would buy one more center connector.

- NOTE: In a row of shelters, you would buy one Shelter Framing Package (76110678) and from that point on, you would buy all Add-ons (76110708). If you placed two

shelters **facing each other** with a breezeway between them you would have to buy two Shelter Framing Packages and two 6' Center Roof Connectors (76110708).

Each additional pair of facing stalls would require two more add-on framing packages and one more 6' center connector.

- NOTE: 6' Center Connectors are **not** used unless you are setting up pairs of shelters **facing each other with**

12' Open Support Brace

Item No. 76110697 (gray)

Item No. 76110699 (galvanized)

If you leave the front or back of a pen or stall open, you must use a 12' Open Support Brace to hold the sides securely. **When ordered as an individual component, 4 pair (2 pkgs.) of butterfly clamps must be ordered separately.**

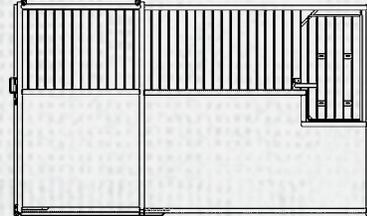

12' Stall Front

Item No. 76110287 (gray)

Item No. 76110289 (galvanized)

12' wide, 7' high, 4' wide sliding door, 2' wide feed door, (feeder optional), customer supplied filler on bottom, solid steel vertical bars on top.

Filler **NOT** Included

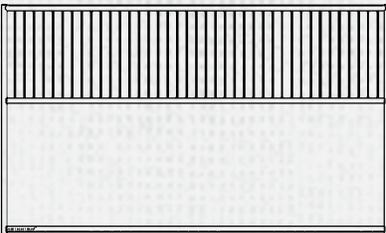

12' Stall Panel w/Bars

Item No. 76110297 (gray)

Item No. 76110299 (galvanized)

12' wide, 7' high, customer supplied filler on bottom, solid steel vertical bars on top.

Filler **NOT** Included

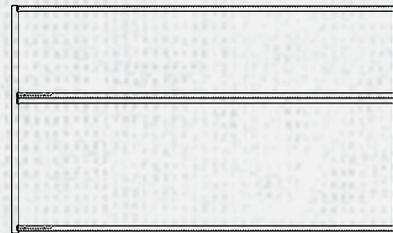

12' Stall Panel, Solid

Item No. 76110257 (gray)

Item No. 76110259 (galvanized)

12' wide, 7' high, metal frame with customer supplied filler on top and bottom.

Filler **NOT** Included

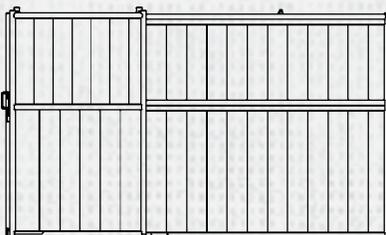

12' Solid Stall Front

Item No. 76110727 (gray)

Item No. 76110729 (galvanized)

12' wide, 7' high, 4' wide sliding door, customer supplied filler on top and bottom.

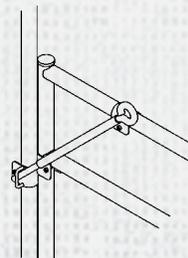

Filler **NOT** Included

Optional Horse Gate Latch

Item No. 44112207

Very simple, low-cost, bolt-on latch for XT Entrance Panel, or any other 1-5/8" or 2" Behlen gate.

Feeders

Stall Feeders

Designed for horse safety and long life

A. Wall Hay Rack

- 3/8" solid rod
- Finished with premium powder coat paint
- Depth from wall is 12"

B. Corner Hay Rack

- 3/8" solid rod
- Finished with premium powder coat paint
- Depth from wall is 30"

C. Galvanized Wall Feeder

- Provide a safe, durable and effective means of feeding both hay and grain from the same feeder
- Feeder is constructed of heavy galvanized steel
- Hay rack is fabricated from solid, galvanized rod
- All edges are rolled for enhanced animal safety
- Include a poly trough that is rust- and corrosion-free
- Come with mounting brackets to hang from a portable stall or attach directly to the wall

D. Galvanized Corner Feeder

- Designed to provide a durable and efficient means of feeding both hay and grain from the same feeder without entering the stall
- All feeders have an enclosed back to prevent hay from falling out
- Feeder is constructed of heavy, galvanized steel
- Hay rack is fabricated from solid, galvanized rod
- All corners are rounded for enhanced animal safety
- Poly trough is rust- and corrosion-free
- **Intended for stalls with an already existing feed door**

E. Swing out Corner Feeder

- For applications where a feed door is not already installed

F. Poly Wall Feeder

- One-piece molded unit with smooth edges and a galvanized steel hay rack
- Can be mounted to wall or fence

G. Poly Corner Feeder

- Made of poly with solid, galvanized rods for the hay rack
- One-piece molded unit with smooth, rounded edges for animal safety
- Designed for long life

H. Utility Corner Feeder

- This large-capacity polyethylene feeder will not rust, warp, deteriorate in sunlight or split
- Resists chemicals, cribbing, mildew and puncture
- Has bottom drain for easy cleaning

I. Poly Horse Grain Feeder

- Helps prevent throwing, pushing or spilling feed from the bowl
- Smooth, rounded edges prevent injury and allow animal to easily clean out all feed
- Corner or flat wall mounting

Bunks, Racks and Storage

A. 5' Horse Bunk

- Strong yet portable
- Heavy duty galvanized steel construction
- Smooth, rounded corners
- Square ends allow bunks to be bolted together
- Optional Hay Rack available
- HFB10, HFB5, designed for horses, are taller

B. 10' Horse Bunk

- Strong yet portable
- Heavy duty galvanized steel construction
- Smooth, rounded corners
- Square ends allow bunks to be bolted together
- One-piece molded poly trough
- Optional Hay Rack available
- HFB10, HFB5, designed for horses, are taller

C. 5' Feed Bunk & Hay Rack

- Feed loose hay and grain at the same time
- Made from solid rod for extra durability
- Bolt directly to the galvanized feed bunk
- Comes complete with all hardware needed

D. 10' Feed Bunk & Hay Rack

- Feed loose hay and grain at the same time
- Made from solid rod for extra durability
- Bolt directly to the galvanized feed bunk
- Comes complete with all hardware needed

E. Poly Storage Container

- All poly construction will not corrode or rust
- Strong metal hinge for lid
- Holds 400 lbs. of feed
- Strong, yet lightweight
- Can be divided into two compartments, using 2 pieces of 1" thick lumber (not included)
- Ideal for feed, toys, firewood, recycling, etc.

F. Grooming/Mounting Step

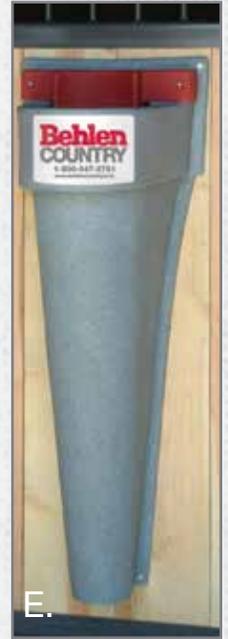

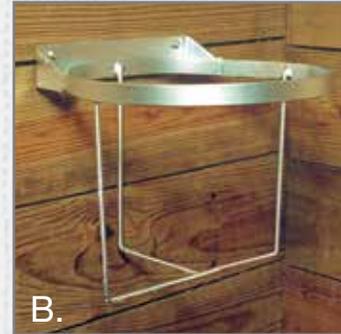

- Made of strong Rotomold poly
- Wide-base design is stable and the steps are slip-resistant
- Ideal extra step up when grooming or mounting a horse
- Available in green

Bale

HAYSMART Bale Feeders

HAYSMART bale feeders keep the hay in the feeder and money in your pocket.

HAYSMART Bale Feeder by Behlen Country

Benefits of the unique chain cone design:

- Increases hay utilization to more than 96% compared to 85% with other feeding methods
- Allows cattle to move the hay around, eating evenly through the toughest bale
- Suspends the hay off the ground at an ideal height

Superior strength and durability:

- 6' tall
- 18 tight feeding spaces
- 16 gauge heavy duty sheeting
- Grade 5 plated hardware
- 1/4" Grade 40 High Test chain
- Finished with green powder coat paint

Customer Gene Kinslow writes:

It is undoubtedly the best designed, heaviest round bale feeder we have ever had on the farm. Additionally, the 624 lb.. weight of feeder does not allow the cattle to move the feeder. Absolutely no hay slips out from underneath the HAYSMART feeder to be trampled like happens with a typical lightweight, traditional round bale feeder. This feeder is actually making us money. The HAYSMART bale feeder has saved Gene and many other customers a minimum of 20% of the hay fed.

DESCRIPTION	LBS.	ITEM NO.
HAYSMART Bale Feeder for Cattle	624	26120512

The new Horse HAYSMART Bale Feeder keeps your hay in the feeder and money in your pocket.

Benefits of the unique chain cone design:

- Increases hay utilization to more than 96% compared to 85% with other feeding methods
- Allows horses to move the hay around, eating evenly through the toughest bale
- Suspends the hay off the ground at an ideal height keeping it clean

Poly Sheeted Bottom Features:

- Superior horse safety; no sharp metal edges
- Twice as thick as any steel sheeted model on the market
- Easily replaceable for a lifetime of use

Superior strength and durability:

- Over 6' tall, 8' diameter
- 18 horse-safe feeding spaces
- 16 gauge heavy duty sheeting on top
- Grade 5 plated hardware
- ¼" Grade 40 high test chain
- Finished with gray powder coat paint

Mineral Feeders

A. Super Bull Mineral Feeder

- Large 40" diameter base and 17" tall
- 4.6 cu. ft. capacity easily holds up to 250 lbs. of salt or mineral (block or loose)
- Lynch pin retainer for fast flap removal and easy filling
- Large base with 3 anchor points eliminates tipping
- High quality UV protected polyethylene resists breakage, even at -20° F.

B. & C. Heavy Duty Poly Bull Feeders

- Tough enough for bulls, easy enough for small animals
- Self-closing rubber cover keeps out rain, snow and dirt
- Poly and rubber materials are corrosion-proof and will withstand cold temperatures
- Available with three or four compartments to hold mineral

D. Super Wind Vane Feeder

- It starts at the bottom...the hot dipped galvanized bottom gives you the most corrosive resistant base in the industry against salt, mud, manure, etc.
- Heavy-duty 3/8" tow loops allow the unit to be pulled from location to location for rotational grazing with a four-wheeler or tractor
- Heavy-duty sealed, plated bearing offers years of maintenance-free service and reliable spinning action
- Two compartment poly feeder hood will not corrode

E. Wind Vane Feeder

- Tough, functional and economical
- All-poly rotating head protects mineral
- 1.9 cu. ft. poly tub, large 48" dia. base ring is solid 3/4" steel for extra long life

Hog Feeders & Troughs

A. Economy Hog Feeder

- P1 and P2 models come fully assembled
- Galvanized steel available in one and two-door
- Trough feed adjustment control
- Ideal for youth projects
- Not recommended for confinement installations

A1.

A2.

B. Feed Troughs

- Heavy 14 gauge steel troughs great for feeding or watering
- Mig welded to assure leak-proof construction
- Painted with premium powder coat paint

B.

C. "V" Trough Feeder

- Trough is 14" from ground
- Drain holes help prevent spoilage
- Top bar keeps animals out of feeder
- Available in 4' and 8' lengths

Calf Creep Feeders

Calf Creep Feeders

- One-piece poly feed hopper will not corrode or rust
- All steel parts are galvanized for long life and durability
- Keeps cows out and allows calves to eat
- Molded-in side deflectors provide protection from rainwater
- Tall side height keeps larger animals from reaching into feed area
- Molded trough brace promotes animal safety in eating area
- Runners for hopper face side-to-side to allow feeder to be moved easily
- Easy to assemble - long drop rods for quick assembly
- UV stabilizers help prevent sun damage
- The galvanized cross bar is infinitely adjustable for any size calf
- Tested to -20°F

Specialty

Calf Hutch, Anchor Stakes, Post Driver

A. Calf Hutch

- Protect calves and small animals from weather extremes
- Opaque material prevents overheating in summer temperatures
- Rear vent openings

B. Anchor Stakes

- Can be used for a variety of applications, including fence corner anchors, tie-downs, guying trees and shrubs, tethering pets; or for tent stakes
- Available in four different sizes
- Insert pipe or rod through the eye as a handle to screw the anchor into the ground

C. Post Driver

- Constructed of heavy pipe
- Capped with a special plug that balances the unit
- Works with any standard t-post or u-post

Tanks & Galvanized Stock Tanks

Galvanized Tanks

- Ideal for all your livestock watering needs
- Built to endure the most severe farm and ranch conditions
- Corrosion resistant, heavy zinc coating assures long life
- Rigid sidewalls have both ribs and corrugations for maximum strength
- Heavy galvanized tank bottoms (20 ga.)
- Heavy, reinforced steel tube rolled into the top lip for added strength and durability

NOTES:

- Tank sizes are nominal and will be slightly less than stated size.
- For lower freight costs, two or three tanks of the same size will be nested, requiring the inner tanks to be undersized.
- Waterers not available in round tanks.

Galvanized Waterer Tanks

Two drinking levels service both large and small animals.

- The poly waterer has a large opening to make it easier for animals to drink
- The waterer box and float are molded from tough, food-grade polyethylene for cleanliness and long-life
- The built-in float guard protects the valve and float mechanism
- Valves adjust easily for proper water level
- The rubber gasket seal prevents leaking

Tanks &

Poly Stock Tanks

Poly Stock Tanks

- Durable seamless design resists breakage.
- All round-end tanks have an extra heavy duty, molded rim and an extra-deep sidewall rib design for additional strength.
- Round tanks have a “formed open” rim.
- Heavy duty, molded-in aluminum drain fitting and 1¼" poly drain plug ensure a long-life. (PRE214 & PRE216 have no drain plugs because they are easy to tip.)
- FDA food-grade approved poly, tested to -20° F, corrosion-free, impact resistant and recyclable.
- Premium UV Protection assures long life and resistance to color fade in outdoor use.
- All poly tanks have a **THREE-YEAR WARRANTY.**

Tanks &

Energy-Free Waterers

How They Work

Heavy foam insulation keeps water at the perfect temperature, regardless of conditions. Ground water enters the unit between the temperatures of 48°F and 56°F, where it remains until the waterer is opened by the animal. As the animal drinks, new water enters through the automatic valve and mixes with the water already in the waterer, so it is constantly replenished and prevented from freezing. The water in the waterer is kept in the dark, which prevents algae growth.

When the waterer is not in use, an optional Shut-Off Valve Kit prevents water from entering and drains the waterline to prevent freeze up.

Energy-Free Waterer float balls push down effortlessly, requiring half the pressure of competitors' float balls, so even calves, sheep and other small animals can drink easily.

Energy-Free Waterers

- Built-in hold downs
- New, non-siphoning BL water valve, which features:
 - Fast, consistent fill
 - Units have a non-siphoning, easy maintenance water valve
 - Use with pressure lines from 0-55 p.s.i.
 - Additional pressure regulator required for pressures above 55 p.s.i.
- Removable drain plugs and accessible covers
- Fully assembled, ready to install
- 5-year limited warranty on the body and a 1-year limited warranty on valves and controls
- To ensure proper operation in cold weather, it is recommended that each unit be installed with the Poly Earth Tube (purchased separately)

A. & B Super 2 or 4-Hole Cattle Waterer

- Designed for heavy cattle use in extremely cold temperatures
- Tested at -20°F for 48 hours without freezing with no animals drinking
- Rim design helps keep float balls free of ice buildup
- Extra-thick 4" urethane insulation
- Removable top for hot weather operation
- Easy access for installation and maintenance

C. 4-Hole Cattle Waterer

D. 2-Hole Cattle Waterer

E. & F. Poly Earth Tubes 18" & 24"

- NEW heavily insulated design
- Provides the protection needed to keep the riser pipe from freezing below the ground even in the coldest weather
- Sections connect with screws

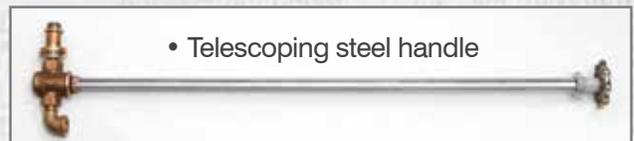

G. Shut-Off Valve Kit

- Hydrant style drain back feature protects waterer from freezing when not in use

- All brass valve

- Telescoping steel handle

Tanks &

Electric & Insulated Waterers

Electric & Insulated Waterers

- One-piece, heavily insulated waterer, poly design is rust and corrosion free
- Thick styrofoam floor keeps the frost line below the waterer
- Urethane in the walls provides over four times the insulation of competitors' models (tested to -20° F)
- Low-wattage, infrared heat pad directly under the water trough (starts at approx. 42°F)
- Heat pads are totally isolated from the animal to prevent danger from shock
- Double-insulated design eliminates the possibility of stray voltage
- Units have a non-siphoning, easy maintenance water valve
- Additional pressure regulator required for pressures above 55 p.s.i.
- An optional low-pressure valve is available for special applications
- Built-in hold downs
- Removable drain plugs
- Easy access doors
- Fully assembled, ready to install

A. Extreme Weather Poly Waterer

- Powerful 220 watt infrared heat pad heats the underside of the water basin
- Large, 8 gallon capacity
- 5 year warranty on the body
- Assembled for the customer
- Large access panel
- Molded-in hold downs
- Latched float cover for easy maintenance
- Extra thick insulation keeps the cold out and reduces energy costs

B. Companion/Horse Waterer

- Made especially for horses, exotic pets or small farm animals.
- Rounded corners for safety
- Large access panel for hookup and maintenance
- Molded-in hold downs
- Thick insulation
- Deep 8" bowl holds 5.5 gallons
- The AHW30 is electric and uses a 75-watt super-efficient infrared heating pad, which is thermostatically controlled

*SHIPPING NOTE:

There is a minimum dollar amount for all UPS shipping orders. Now order parts that ship via UPS online at www.parts.behlenmfg.com or call (800) 447-2751 for more information.

Cattle Eq

Chutes & Headgates

Don't Operate Without a Chute

If you keep a herd of 50 head or less, you might not think a squeeze chute is for you. Yes, you can work cattle with a headgate, or the help of a few loyal friends who rope. But there are lots of reasons why use of a squeeze chute should be on the top of your list. Your safety is at the top of that list. Herd health, and the related economic benefit it creates, is also an important payoff.

For example, Researchers at the University of Kentucky developed enterprise budgets for 50-cow herds with a \$5,000 investment in handling facilities that included a headgate and chute. The resulting increases in calving percentages and weaning weights, as well as lower death loss rates for both cows and calves, proved that the investment paid for itself in less than five years.

Choosing the Right Chute

Before buying a squeeze chute, you need to answer a few questions about its intended use. Bovines come in all sizes, weights and attitudes, so a chute that works for one producer may not work for another.

Some squeeze chutes apply squeeze pressure from only one side, while others squeeze from both sides, forming a 'V' shape that helps balance and support the animal. Regardless of design, experts agree that the best squeeze chutes allow both sides to squeeze equally, thus keeping the animal balanced. The Canada Plan Service gives the following guidelines for the inside widths of the chute at the bottom of the V shape:

- Six inches for 250 to 400 pound calves.
- Eight inches for 600 to 800 pound animals.
- Twelve inches for cows and heavy feeders.
- Fourteen to sixteen inches for larger bulls.

Animal scientists with the Alabama Cooperative Extension service list four basic types of headgates: self-catching, scissors-stanchion, positive-control, and full-opening stanchion. Once again, you need to know what kind of animal you'll run through the chute. For example, self-catching gates don't work well with horned cattle. There are lots of options available:

- A door or space that allows injections to be given in an animal's neck is a necessity in order to avoid damaging expensive cuts of meat.
- A service door or palpation cage provides access to the rear of animals.
- Hydraulic squeeze chutes take some of the effort out of operation.

Squeeze chutes put the squeeze on the animals, not the operator.

Equipment

Silencer™

Hydraulic Squeeze Chute

- The most innovative and technologically advanced chute in the cattle industry
- A patented noise reduction system of 130 contact points sheathed in oil based polyethylene to significantly reduce the noise level
- Full-opening head and tail door
- The headgate is wrapped in rubber to prevent shoulder damage to the animal
- Hydraulic head restraint (becomes half of the neck bars when used that way)
- Rubber louvers prevent animals from seeing humans to the side of chute
- Side exit available Left/Right/Both
- Neck bar Left/Right
- Hydraulic Lower Squeeze
- Dual additional neck access for precision vaccinating
- Choice of power units
- For animals from 350 lbs. on up
- Premium powder coat paint - Gray

Heavy Duty Model

In addition to the standard features, the main frame has 4" x 2" x 3/16" rectangular tubing, 1/4" wall side-gates, 1/4" floor for increased life of chute, modular construction for superior maintenance, replaceable heavy-duty drop bars, 10 quick change re lube roller bearings - top connector and lower head door connector and 6 - 4 x 2 cylinders.

Deluxe Ranch & Heavy Duty Extended Chutes

Silencer Extended model chutes are designed with a rear door for the operator to step in behind the animal for artificial insemination, semen checking, pregnancy checking, embryo transfer, etc.

Other models and options, are available. Call 800-447-2751 for quotes.

Additional Options

Heavy Duty and Commercial Pro, Extended Length, Palpation doors, Pivot Controls, Pivot Controls w/ Overhead Scales, Dual Controls, Neck Bars, Hydraulic Neck Extenders Left/Right/Middle, Dehorner Bar, Hydraulic Kick Bar, Yearling Side Gates-Both Sides, Brisket Bar, Rebar Floor, Platform Scales, Vertical/Horizontal Split Droppan, Leg Puller

Heavy Duty Headgates

A. M-Series Self-Catch Headgate

- Adjustable from both sides for a more precise fit and increased safety
- Attaches to any Behlen Country chute, right- or left-hand operation
- Adjusts to handle livestock from 300 lbs. and up
- Recommended for M1 & M1-V chutes
- Pins allow for quick adjustment of width opening

A.

B. M-Series Manual Headgate

- Features the “Pos-o-lock” ratchet system, ensuring that cattle are caught safely and can’t escape
- Opening handle attaches parallel to the chute, out of the operator’s way, offering plenty of leverage to reduce operator fatigue
- Design of the handle allows it to swing from behind the animal, encouraging forward movement
- Attaches to any Behlen Country chute, operates either right-handed or left-handed
- Available with or without Nek-Stender® bars
- Recommended for M1 & M1-V chutes

B.

C. M-Series Manual Headgate w/ Nek-Stenders®

Standard Duty Headgates

D. CL-5 Utility Headgate

- Perfect for small herds
- Either manual or self-catch operation
- Yoke width adjusts from 4½" to 8"
- Left-hand or right-hand operation
- Mounts to alleyway or any of our Behlen Country chutes
- Recommended for alley headgate stand

Tru-Test Indicators

- Tru-Test designs, manufactures, and markets the world's leading electronic livestock weighing systems
- When you choose Tru-Test from Behlen Country®, you receive the backing of a company that supports its products
- Tru-Test indicators and load-bars are backed by a two-year warranty that includes parts and labor
- All warranty work is done at the service center in Mineral Wells, Texas

A. Ezi-Weigh5i

- Simple to use
- Largest weight display on the market
- High contrast display with LED backlight, making it viewable in all conditions
- Durable case to withstand the toughest environment
- Tru-Test's Superdamp™ III for speed and accuracy
- Compatible with all Tru-Test load bars and load sensors
- Auto zero function, ensuring any accumulated dirt is not weighed
- Fine mode for smaller weights

B. ID5000

- Store up to 250 thousand records in 250 weighing sessions. For each animal you can record up to 3 IDs and 3 pieces of information (other than weight)
- Sort animals into uniform groups. Up to 5 groups can be created
- Quickly transfer information using your mobile and/or tablet device, USB flash drive or computer
- Flexible use with any Tru-Test loadbars and platforms
- Long battery life 10 hrs with backlight, 13 hours with backlight off

Tru-Test Loadbars

C. MP600 Loadbars

- Designed for use with a platform
- Can be easily transported from site to site
- For use on a firm, level surface
- Wt. cap. 4,400 lbs. - 23" long

D. HD850 Loadbars

- Designed for permanent installation under Behlen Country M1 & M1-V Squeeze Chutes
- Their unique footing absorbs side loading force, preventing damage to scale
- Wt. cap. 6,600 lbs. - 34" long

E. Ezi-Weigh5i System

- Total weighing capacity of 4400 lbs.
- Perfect product for basic weighing platform applications

Care Center

Portable Calving & Sick Pen

- Provides a portable and self-contained working area to assist with calving and calf acceptance (nursing) problems
- Ideal cattle work area for smaller operations
- One-man operation and complete portability make it an essential part of any cattle operation
- Accepts any Big Valley® Headgate
- The squeeze gate is split, to allow it to swing out of the way to correct nursing problems, graft calves to cows or perform caesareans
- It can be swung completely out of the way to form a 10' x 8' or 10' x 10' pen
- Comes standard with 8' or 10' panels but can be enlarged by using 12', 14' or 16' side panels; the 4' access door provides easy entrance
- The Split Squeeze Gate can be swung out of the way to convert the Portable Care Center into a pen for treating and containing sick animals

Drag Harrow & Land Plane

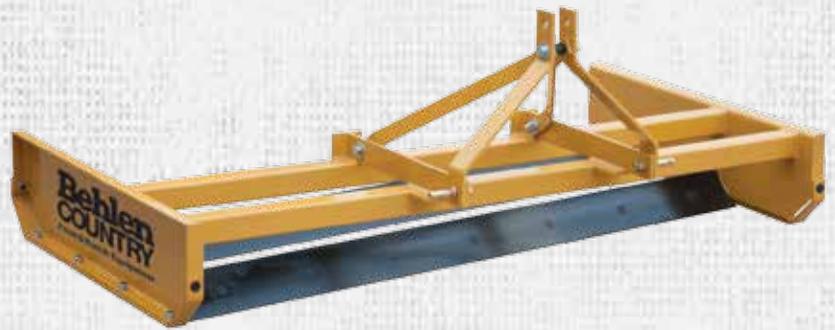

Drag Harrow

Behlen Country Drag Harrows have so many uses that we can't list them all. Built with heavy 1/2" x 4" tines and 2" heavy seamless draw bar, these are work horses. They can be easily reversed to allow for less aggressive penetration. Some of the more common uses are: leveling riding arenas, preparing seed beds, reconditioning driveways, incorporating broadcast seeds, spreading manure in pastures, and beach conditioning. Coated with premium powder coat paint. Imported.

Land Plane

Our new Behlen Country Land Plane is perfect for maintaining driveways, gravel roads and for final leveling work. With two cutting edges and a 7' width, you will make short work of big grading jobs.

- Great for grading driveways, leveling land, or reconditioning gravel roads
- Wide enough to cover your tractor tracks and maintain most drives in two passes
- 84" grading width
- Two replaceable cutting edges for maximum grading
- Rear 3-point hookup quick-hitch compatible
- Recommended for tractors up to 40HP
- Category 1 quick hitch compatible
- Replaceable bottom wear strips on sidewalls

Arena Groomer

Create excellent footing for your equestrian needs with this arena groomer offered by Behlen Country®. Whether you have a commercial facility or small training barn, this groomer adjusts to be suitable for a variety of needs and conditions. With ease it creates a good base and finished top surface. This groomer's s-tines can be adjusted to your desired depth, ensuring penetration of the surface and break down of dirt clumps. The leveling bar behind the s-tines levels any hill or valleys. Behind the leveling bar is a set of roller bars that leave a nice, finished surface. This groomer is ideal to be used with category 1 or 2 tractor and works great in dirt or sand arenas.

DESCRIPTION	LBS	ITEM NO.
48" x 48" Drag Harrow	116	3018371
72" x 60" Drag Harrow	153	3018264
96" x 60" Drag Harrow	191	3018263

96" Arena Groomer	550	80117385

Miscellaneous Equipment

Universal Skid Steer Mount

Behlen Country's Universal Skid Steer Mount allows you to easily hook any attachment to your skid steer loader. Simply weld this mount to your loader bucket, bale mover, forklift, or an endless variety of other custom attachments. Made to SAE-J2513 standards; this will fit most skid steer major brands.

3-Point Hitch Mover

Heavy Duty

The Behlen Country Heavy Duty 3-Point Hitch Mover has a multitude of uses, from moving gooseneck trailers, ball hitch wagons on the farm to moving boats at the lake. These Hitch Movers cover it all. Comes with a 2- 5/16" welded top ball, slide in section for any 2" receiver, and Category 1 and 2 lift pins. Rated for over 10,000 lbs.

3-Point Spreaders

Behlen Country's 3 Point Spreaders feature a seamless one piece hopper with a 850# capacity (dependent on product), available in both steel and corrosion resistant Poly. This PTO driven spreader includes an in-hopper agitator and spreads up to 46', with directional spreading available. The Pull behind spreader features a 650# capacity steel hopper and can be used with an ATV or Lawn Tractor for a variety of spreading uses.

Behlen Country's Sub-Compact (SC) lines start with the strength and versatility of the big boys blended with the agile handling and size you expect from your Sub-Compact (15-30 HP) tractor. All of our SC line implements are fully featured and have the same warranty and quality standards you expect from the rest of our 3-Point lineup.

Don't let the size fool you, these implements are designed for years of safe, reliable use. The premium powder coat finish will provide fade resistant, long lasting pride of ownership. Don't get fooled by low quality, liquid paint found in other lines. Identified by their orange color, the Behlen Country SC implements provide endless possibilities for use of your small tractor.

Grader Blades

Behlen Country Sub-Compact Blades are ideal for applications such as driveway maintenance and snow removal. Reversible, heat-treated blades allow for long lasting durability. Behlen Country Grader Blades can be adjusted to five settings forward and reverse. Category 1 pins on Category 0 spacing.

Box Blade

Behlen Country's Sub-Compact Box Blade is ideal for driveway maintenance, snow removal, dirt, gravel spreading and more. Heat-treated blades allow for long lasting durability. Adjustable shanks allow for deep ripping. Category 1 pins on Category 0 spacing.

Landscape Rake

Behlen Country's Sub-Compact Landscape Rake is great for clearing a trail, driveway maintenance and numerous other chores. Five forward and five reverse settings. Category 1 pins on Category 0 spacing.
